

GENDER

Dr. Brad Alles • Concordia University Wisconsin • brad.alles@cuw.edu • bradalles.com

• Transgender stats (UCLA 2022)¹

1. Nearly half of 1.6 million transgender Americans are teenagers or young adults
2. Percentage of youth doubled since last estimate; adults remained same
3. Percentage of youth varies by state (NY=3%; WY=0.6%; WI=1.75%; average=1.43%)
 - Educational policies & regional politics may be reason

• Gender Identity Disorder (GID); now called “Gender Dysphoria”

1. Rare (Diagnostic & Statistical Manual of Mental Disorders—DSM-5, May 2013)²
 - Males-- .005 to .014% (5-14 cases for every 100,000 males)
 - Females-- .002-.003% (2-3 cases for every 100,000 females)
 - Historically (100 years) boys ages 2-4³
2. 75% lose feelings on own (APA Handbook of Sexuality & Psychology)⁴
 - No certain physiological or genetic cause (DSM-5); not “born that way”
 - 15% of youth will attempt suicide; 3% of all students will⁵
3. Counseling
 - For underlying conditions: autism, trauma, anxiety, & stress
 - Banned in 20 states⁶
4. Chemical solution?
 - Gender clinics giving puberty-blockers & cross-sex hormones (no FDA approval)
 - No research tracking satisfaction or regret⁷
 - Unknown long-term effects (no clinics 15 years ago)
 - Short-term effects: lower bone density, high blood pressure, breast cancer, liver disease, cardiovascular disease, & infertility⁸
 - Sweden, Finland, England use “watchful waiting”—a transient phase⁹
 - England’s MDs: don’t change name/pronouns¹⁰
5. Surgical solution?
 - Johns Hopkins no longer does sex-reassignment surgery (first in 1960’s)
 - Patients no better psychologically or socially than those without surgery¹¹
 - Patients 19 times more likely to commit suicide than average¹²
 - What about anorexia?

6. Cost¹³

- *Estrogen injections--\$2400/per year*
- *Testosterone gels--\$4200/per year*
- *15 year-old will spend \$100K+ on hormones and \$100K+ on surgeries in lifetime*

7. After transition surgery

- *No study shows any mental health benefits¹⁴*
- *Sweden's comprehensive study on long-term effects: suicide 19x more likely*

8. After transition surgery regrets

- *7000 in 2020 (Reddit group)*
- *35,000 in 2022 (400% increase)*

• **Rapid Onset Gender Dysphoria—Dr. Lisa Littman (Brown U.)**

1. Usually teenage girls (not all women)
 - *England—4000% increase in girls seeking transition over decade*
2. Sudden requests for hormones or surgery
3. Nearly 70% of parents: child part of group where 1 or more transitioned
 - *Social contagion (like anorexia)*
4. 60% of parents: transgenderism increased child's popularity
5. Over 60% of parents: child was previously diagnosed with mental health disorder
 - *Depression, anxiety, self-harm*
 - *Struggling socially*
 - *Unhappy with body*

• **What to do**

1. Speak the truth in love
2. Use name from parents; treat respectfully
3. Deal with underlying issues: eating disorders, depression & autism¹⁵

• **What about “Plurals”?**

1. People who identify as other people, animals, or objects
2. Dissociative Identity Disorder or expression of true selves?

• **What about...?**

1. Rachel Dolezal
2. Emile Ratelband
3. Stefonknee Wolscht

• **Bible & biological sex**

1. God created male & female
 - *So God created man in his own image, in the image of God he created him; male and female he created them. (Ge 1:27)*
2. God institutes marriage of one man & woman
 - *Therefore a man shall leave his father and his mother and hold fast to his wife, and they shall become one flesh (Ge 2:24)*
3. Sexes & marriage display God's image & order
 - *“A woman shall not wear a man's garment, nor shall a man put on a woman's cloak, for whoever does these things is an abomination to the LORD your God.” (Dt 22:5)*

• **Biblical care**

1. Christ (Law & Gospel)
 - *God's perfect will & His love for all*
2. Counseling to deal with confusion, shame, & despair
 - *Biology is not bigotry*
3. Community for acceptance & care
